## TKD Tigers Instructor Brochure

### Our growing Tiger Team.

Our team is growing and we already have professionals for every business unit. Although revenues are minimal, our team works very hard with full focus on the Tiger program. The first new trends are soon be visible. We are in an advanced stage with investors that will give our business units a professional boost.

One of our key achievements is a full service platform for instructors to give them opportunities to expand their school to a professional level with fun and income. It is no coincidence that our instructor team is growing very fast! We hope to see you at one of our instructor courses around the world.

### A brief impression of a comprehensive program.

Total Kids Defence Tigers (TKD Tigers) is the world's most professional and progressive course for life skills in the broadest sense of the word for children from 3 to 6 years. Children at this important developmental age can be affected greatly by a role model like you. If you teach kids in a proper pedagogical way, you can positively change their lives. For many years this gives our instructors a tremendous feeling of satisfaction!

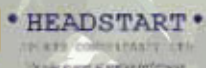

The children are greatly stimulated through the program through endless educational Games. The program consists of five core themes that are complemented by other important life skills.

### The five themes:

- Stranger Drills
- Bully Drills
- Leadership & Teamwork
- Fire, water and road safety
- Health & Fitness.

The themes are perfectly balanced by basic defensive techniques from Taekwon-Do and essential motor skills. The children also learn the strong morals of courtesy, integrity, perseverance, self-control and indomitable spirit. At the end of each semester the children will be tested on their knowledge of the themes, martial art techniques and morals. Through various rewards in the form of themed batches and logos, the children are constantly stimulated to learn on all fronts of the program.

The program has been taught since 2002, tested and adjusted as necessary. The Tiger team is so enthusiastic and passionate that they are constantly working on improvements and innovations. They frequently use feedback from many experienced instructors in the Tiger countries. So please feel free.

## How is the program created?

A team of professionals has spent over 5 years developing the Tiger program and remains to this day working on improvements and optimizations. It was developed in collaboration with various specialists such as sport- and child psychologists, exercise and health scientists, nutritionists and specialists in the field of water, traffic and fire safety and of course some very experienced Taekwon-Do instructors.

## Some current and future activities:

1. Instructor courses at the highest level in all countries (by sufficient interest).
2. Various business opportunities for instructors to grow and expand.
3. A professional guide (225 pages) for instructors with all necessary information, games and sample lessons for sound pedagogical teaching.
4. Opportunity for further instructor education and personal development.
5. Periodic updates of teaching materials and games.
6. Regional and national marketing support for proper growth of your school.
7. A professional student/parent guide with an inspiring fantasy world of Timmy the Tiger. This essential guide provides a perfect interaction between child, parent and instructor, which strengthens the bond!
8. Additional information for parents.
9. A smart business concept with quality merchandising that can provide additional revenue. Give the kids and parents the opportunity to purchase items and create ambassadors that spread the word for your school.
10. And many surprising innovations in development.

## Tigers perfect for pre-school children.

The Tiger program is designed for the youngest pre-school children to prepare them for further education. Children are highly motivated by rewards and the fantasy world of Timmy the Tiger. In preparation, they learn in a simple and instructive manner the basic principles of Taekwon-Do, without losing their attention and motivation. This enables them to graduate easily to a Taekwon-Do junior group for 7 years and above.
